

RYDER DINING

The converging lines of this Stainless Steel stacking frame are inspired by more traditional folding designs. But in a unique twist, removing the mechanism creates an unprecedented minimalism. Finely balanced on scissor like legs this architectural piece is purely aesthetics driven.

With this extension to a considerable design portfolio, well known Danish Designer, Henrik Pedersen has pioneered a potential classic. Comfort remains priority while form is stripped daringly to a minimum. As Henrik says, "I believe Ryder is neatly reinforcing the classic design concept of less is more."

Ryder's slim, powder coated, stainless steel frame boasts a toughness belied by its fine lines. Seemingly delicate sling seat and back panels are made from the most resilient man made materials and offer long-standing weatherproof comfort. Ryder has two frame colours that are each complemented with simple PVC/Acrylic sling options. The White frame is offered with Seagull sling and the Meteor frame with Granite sling.

Designer	Henrik Pedersen
Materials	Stainless Steel (Powder Coated) PVC Sling

RYDER DINING

About Gloster

As life gets faster and more complex, the need for quality time and space - the freedom to be you - grows too. At Gloster we open doors to timelessly beautiful exteriors where your furniture sets the mood, just the way you want it to be. And we take the long view, using only the very best materials and techniques available. Our aim is your pleasure - to be enjoyed in countless special moments outdoors.

With offices world-wide and our own manufacturing facility in Indonesia, Gloster's roots can be traced all the way back to West Africa in 1960, where a band of passionate entrepreneurs and furniture makers took the first steps on a long journey. Today, the same passion, conviction and pride that launched the Gloster brand, continues to fuel our business. We may live in a different world than the one occupied by our founders, but one thing remains the same - we are furniture makers whose sole focus is to design and build the world's finest outdoor furniture.
