

Part sculpture and part coffee table, the Strata collection by Emmanuel Gallina, for **Poliform**, is inspired by mineral stratifications. Each piece is unique, in varying sizes and heights, like stones in nature. The Magnolia seating collection, also by Gallina, is inspired by natural details like the flowing lines of branches and the weightlessness of a falling leaf.

Gloster Furniture's Sway collection by Henrik Pedersen combines a finely proportioned teak frame with a practical sling seat and back to deliver inherent comfort despite an extremely minimal profile.

Janus et Cie teamed up with award-winning designer and architect Philippe Starck to create Serengeti, an outdoor dining and lounge collection. Its frames are constructed of fine sanded teak with visible peg joinery, powder-coated aluminum, and sturdy, canvas sling mesh. The collection features a two-seater, high-back sofa that can also be customized with an integrated awning, perfect for sun protection.
