Gloster

The perfect patio furniture is both elegant and flexible. Modular designs that can be moved easily to chase the sun or laid out for private relaxation in the morning and easy mingling for entertainment late in the day make practical sense. Gloster's all-weather outdoor range is created to cover all eventualities without sacrificing style. The Maya Collection by British designer Mark Gabbertas utilizes powder-coated aluminum frames for low-maintenance durability with teak accents for a glamorous touch. Available at Livingspace.
