PRODUCT PROFILE

ENVIS Comfort Culture

Charles Cassaro defines the look of an outdoor environment, addressing solid shapes and forms with fully upholstered pieces and simple water-proofing to add dimension. With an aim to combine luxury and maximum comfort, ENVIS has upholstered its furniture with a thick layer of quick-dry foam and weather-resistant fabric for sustainability in exterior spaces.

GLOSTER Atmosphere

Comprising a mixture of powder-coated aluminium frames, signature oak, and self-supporting upholstered panels, the Atmosphere range by Casler Milano encompasses a series of dining and seating components sharing slim lines, curved arms, and flowing backs. Finished in a local colour with upholstery in weather-resistant outdoor fabrics by Scabrella, the casual lounge collection is accompanied by a sofa and tables that double as ottomans or impromptu benches, in addition to a dining table with matching chair and bench.

GOMMAISE Aire

Functional and from reclaimed oak wood and recycled metal using powder-coated aluminium, the Aire series is a practical dining set that lends between the heights of bar tables and traditional dining settings. Typical of the Gommaise brand, the elements are composed straight and simple concept lines, together with the warm and natural feeling of treated wooden material.

MAMA GREEN Beach Lounge

Mama Green's Risk Lounge configuration becomes more than a simple set of outdoor furniture, inspired from dark back reclaimed oak, sprayed by hand and line-jointed. The recycled material's green marks bring a naturally sustainable, complemented by oversized water-repellent cushions and bolsters, as well as Italian high-pressure laminate accents for the backs. The lounge has a 180° rotation, and can be used in other deep seating configurations, with a selection of modules and tables with accessories.
