

ARLINGTON DINING

Reconstructed for the modern day, Arlington celebrates the interpretation of a historical style that is ideally suited to the here and now. It offers a unique combination of comfort, practicality, innovation and incomparable style.

Curved arms, louvered back panels, shaped legs and canes wicker seats are all hallmarks of the British colonial style, but Gloster has firmly stamped its own identity on Arlington, combining both traditional wood-working and hand-weaving skills with modern manufacturing expertise.

The demands of the modern day environment, while poles apart from the colonial lifestyle, command no less in terms of longevity or resilience. To this end Gloster continues the tradition of teak frames, but with the contemporary twist of the addition of stainless steel accents. And, for the 21st century, natural cane has been replaced by man-made wicker to offer the authentic caned look, but with all the benefits of a modern material.

About Gloster

As life gets faster and more complex, the need for quality time and space - the freedom to be you - grows too. At Gloster we open doors to timelessly beautiful exteriors where your furniture sets the mood, just the way you want it to be. And we take the long view, using only the very best materials and techniques available. Our aim is your pleasure - to be enjoyed in countless special moments outdoors.

With offices world-wide and our own manufacturing facility in Indonesia, Gloster's roots can be traced all the way back to West Africa in 1960, where a band of passionate entrepreneurs and furniture makers took the first steps on a long journey. Today, the same passion, conviction and pride that launched the Gloster brand, continues to fuel our business. We may live in a different world than the one occupied by our founders, but one thing remains the same - we are furniture makers whose sole focus is to design and build the world's finest outdoor furniture.
