

CLIPPER DINING

This nod to nautical heritage is no accident. Inspired by teak decking on the fastest and finest vessels of yesteryear, Clipper echoes the design notes of these pivotal feats of craftsmanship - the Tea Clippers that opened trade routes around the world. Emulating the levels of design and attention to detail that made these ships possible has allowed Danish designer Henrik Pedersen to deliver a new and unique take on dining.

Henrik was adamant the furniture should clearly reference its inspiration and indeed it does. From finely tapering legs that hint at masts, to the beautiful hull-like radii of the table edge, to the generous deck like slats themselves, this design is as much a story of perfection as it is a catalogue of historic reference. Pedersen says "To me this design feels like the coming together of ideas and techniques that have spanned many lifetimes, providing endless adventures and tales. I hope in their current form these concepts will live on to offer inspiration and pleasure to many others".

About Gloster

As life gets faster and more complex, the need for quality time and space - the freedom to be you - grows too. At Gloster we open doors to timelessly beautiful exteriors where your furniture sets the mood, just the way you want it to be. And we take the long view, using only the very best materials and techniques available. Our aim is your pleasure - to be enjoyed in countless special moments outdoors.

With offices world-wide and our own manufacturing facility in Indonesia, Gloster's roots can be traced all the way back to West Africa in 1960, where a band of passionate entrepreneurs and furniture makers took the first steps on a long journey. Today, the same passion, conviction and pride that launched the Gloster brand, continues to fuel our business. We may live in a different world than the one occupied by our founders, but one thing remains the same - we are furniture makers whose sole focus is to design and build the world's finest outdoor furniture.
