CENTURY

The classic Spanish-Mediterranean style of the Andalusia chaise by Century showcases architectural ironwork in sand-cast aluminum with a durable powder coat finish. Decorative balustrades and a canopy complement the design. centuryfurniture.com

DAVID HARBER

David Harber's new sculpture, Alba, is inspired by the fragile beauty of coral. Alba's organic shape is handcrafted from delicate layers that embody the intricate architecture of its natural form. Echoing the lattice metal cutaways that are central to Harber's core collection, Alba seeks to capture the complex narrative of elegant vulnerability that resonates with the endangered, vital, and unseen ecosystems of our coral reefs. davidharber.com
