 GLOSTER

2026

Inspired by teak,
shaped by emotions.
Our furniture shares a
common history and a
narrative of the life that
we love to live.

Gloster's roots can be traced all the way back to West Africa in 1960, where a band of passionate entrepreneurs and furniture makers took the first steps on a long journey.

Today, the same passion, conviction and pride that launched the Gloster brand, continues to fuel our business. We may live in a different world than the one occupied by our founders, but one thing remains the same - we are furniture makers whose sole focus is to design and build the world's finest outdoor furniture.

RAIL – a design that speaks
of tradition and an age of
exploration.

DESIGN BY
GLOSTER R&D, INDONESIA

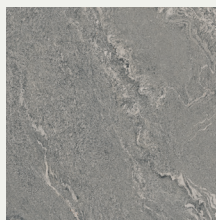

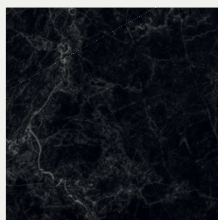

The very name suggests a journey - lines stretching out, converging at a distant point in front and behind. To the future, and to the past. Connecting experiences had and those yet to come. Rail speaks of tradition and an age of exploration.

Realised by Gloster's internal design house, the Rail dining table is all of this and more. Drawing on Gloster's rich history of teak furniture manufacture, the table's frame is beautifully crafted from individually selected, hand finished, sustainably sourced teak.

CERAMIC TABLE TOPS

Nero, Grigio, and Verona.

WRAP – a form that reassures, soothes, supports.

There is nothing better than a trusted embrace. To surrender to a feel and form that reassures, soothes, supports. Imagine the joy of knowing this comfort is waiting, unwavering - to welcome you time after time after time.

Wrap lives up to its name with a one-piece woven seat and back that gently drape over a teak frame rooted in Scandinavian simplicity. The result is a design that feels as inviting as it looks.

Paired with slim, comfortable cushions, Wrap's soft contours offer effortless comfort indoor or out. Available as both a lounge chair and dining chair, each piece is crafted from sustainably sourced teak, is detailed in Sorrel or Umber natural-look fibre, and is finished with sumptuous, all-weather cushions in a wide selection of fabrics.

WRAP DINING

The perfect complement to a variety of Gloster's dining tables, the Wrap Dining Chair features a durable woven one-piece seat and back that appear to drape over teak frames born of soulful Scandinavian simplicity.

WRAP LOUNGE

The generously proportioned Wrap Lounge Chair is perfect for sun kissed terraces and laid-back laughter under the deepening mauve of a tranquil eve.

COMPASS – a crisp design, unsullied by empty embellishment.

Nostalgic yet modern, Ambient Compass draws on the clarity of simple, honest design. Inspired by the guiding compass of old, it stands out with a purity of form in a world of overcomplicated solutions.

Generous panels of hand-finished, sustainably sourced teak form its base, softened by rounded edges and a discreetly integrated handle. Above, handwoven shades in Burlap or Umber use a natural-look fiber that creates texture by day and a warm, diffused glow by night.

Available in three versatile sizes for both table and floor use, Compass houses a weatherproof, remote-controlled LED light that charges by mains or solar. Its timeless form harmonizes with any aesthetic, bringing atmosphere to evenings and stylish presence to daylight décor.

GRAND SAIL – a pairing of sophisticated yet resilient materials.

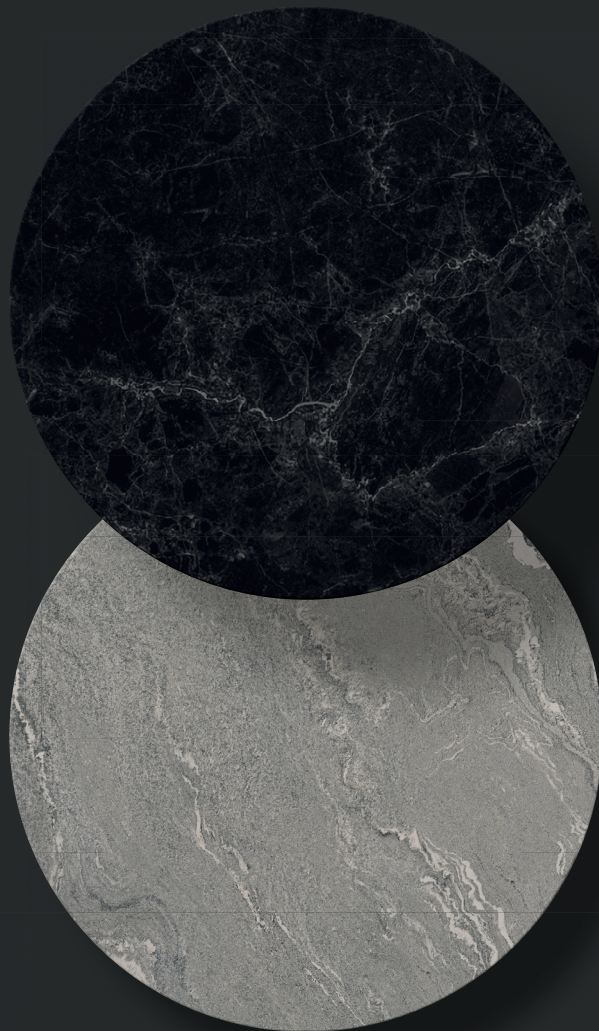

The modern yacht is a triumph of considered engineering, a pairing of sophisticated yet resilient materials and the pinnacle of grand refinement. An impeccable feat of design that facilitates adventure and indulgence in equal measure.

Grand Sail pairs this notion of oceanic exploration with the safe haven of home. Ease into Grand Sail's deeply sumptuous cushions and delight in the attention to detail as you are supported by finely finished frames and surrounded by premium materials with stylish tables in easy reach.

GRAND SAIL · TABLETOP

Delight in the attention to detail, with stylish occasional tables in easy reach. Choose from either plantation teak or practical, hard-wearing ceramic table tops.

GRAND SAIL · TABLE

A triumph of engineering - a pairing of sophisticated yet resilient materials and the pinnacle of grand refinement.

GRAND SAIL – a pairing of sophisticated yet resilient materials.

The collection comprises a 2-Seater Sofa, Left and Right End Units and a Centre Unit as well as inline or freestanding Side Tables and a Coffee Table.

Frames are formed from striking aluminium horizontals that curve gracefully into mast-like verticals finished in lightly textured, Meteor or Bone colour powder coat.

These support sleek outdoor fabric ‘sails’ fashioned from complementary Blend Coal, Blend Sand or Blend Linen fabrics tensioned around a secondary aluminium frame. Seat cushions are topped with large pillows and smaller lumbar cushions. Occasional tables have matching frames and the option of either natural finish teak or ceramic tops in a variety of colours.

Grand Sail pairs the notion of oceanic exploration with the safe haven of home.

GRAND SAIL

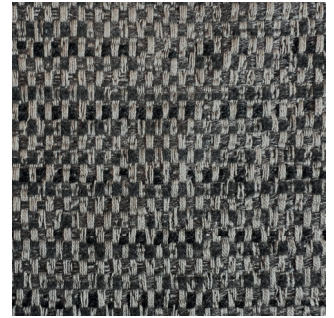

DESIGN BY
HENRIK PEDERSEN
DENMARK

Henrik Pedersen, award winning designer from Denmark says of his design; "Every element serves a purpose - to create a soft, cozy setting with modular flexibility. A selection of structured fabrics allows for personalization, and the mix of textiles adds an extra tactile dimension, making the Grand Sail a truly immersive voyage of comforting discovery."

INTRODUCING BONE

A soft, warm powder-coated finish that brings a natural elegance to the outdoors.

Subtle and sophisticated, Bone complements the timeless materials at the heart of several Gloster collections, enhancing open-air living with quiet confidence.

This sophisticated new finish is now available on:

- 180
- Carver
- Fern
- Fresco
- Grid
- Sway

FERN – inspired by the delicate fronds of a unfurling fern leaf.

Fern by Sebastian Herkner is an imposing, yet cosy collection with a design language that harks back to nature. Combining practical, aluminium frames with a soft finish outdoor rope, the enveloping, woven back rest both protects and provides comfort to the occupant.

With a frame that reflects the clean, sculptural simplicity of Scandinavian design, Fern is defined by comfort and character. A durable, powder-coated aluminum frame pairs seamlessly with a hand-woven backrest of soft-touch outdoor rope, showcasing both strength and craftsmanship.

The collection is available in two refined colorways —Meteor with Raven rope, or Bone with Dune rope— and includes a high- and low-back lounge chair, sofa, daybed, and a dining chair—each piece balancing elegance and durability in equal measure.

Rooted in nature
a palette of subtle and
muted tones combine in
harmony.

As life gets faster and more complex,
the need for quality time and space - the
freedom to be you - grows too. At Gloster we
open doors to timelessly beautiful exteriors
where your furniture sets the mood, just the
way you want it to be.
