SEASONS

WE ARE

Furniture makers, whose sole focus is to create the world's finest outdoor furniture.

Gloster's roots can be traced all the way back to West Africa in 1960, where a band of passionate entrepreneurs and furniture makers took the first steps on a long journey. Today, the same passion, conviction and pride that launched the Gloster brand, continues to fuel our business.

We may live in a different world than the one occupied by our founders, but our passion for designing and building the world's finest outdoor furniture remains the same.

ES

Gabriele Buratti, architect and professor of Interior Design at Politecnico di Milano, and Oscar Buratti, architect, from the architecture and design studio BURATTI ARCHITETTI.

The studio is transversally involved in projects of different scales, from the architecture of buildings and urban areas to interiors of houses and commercial spaces, from the design of furniture and lighting to exhibition and showroom design, in an intense and varied professional path, in which themes, places and typologies, brands and people, materials and workmanship, mingle together contaminating one another, with the aim of combining culture and professional specialization, experimentation and technique, original vision and product quality.

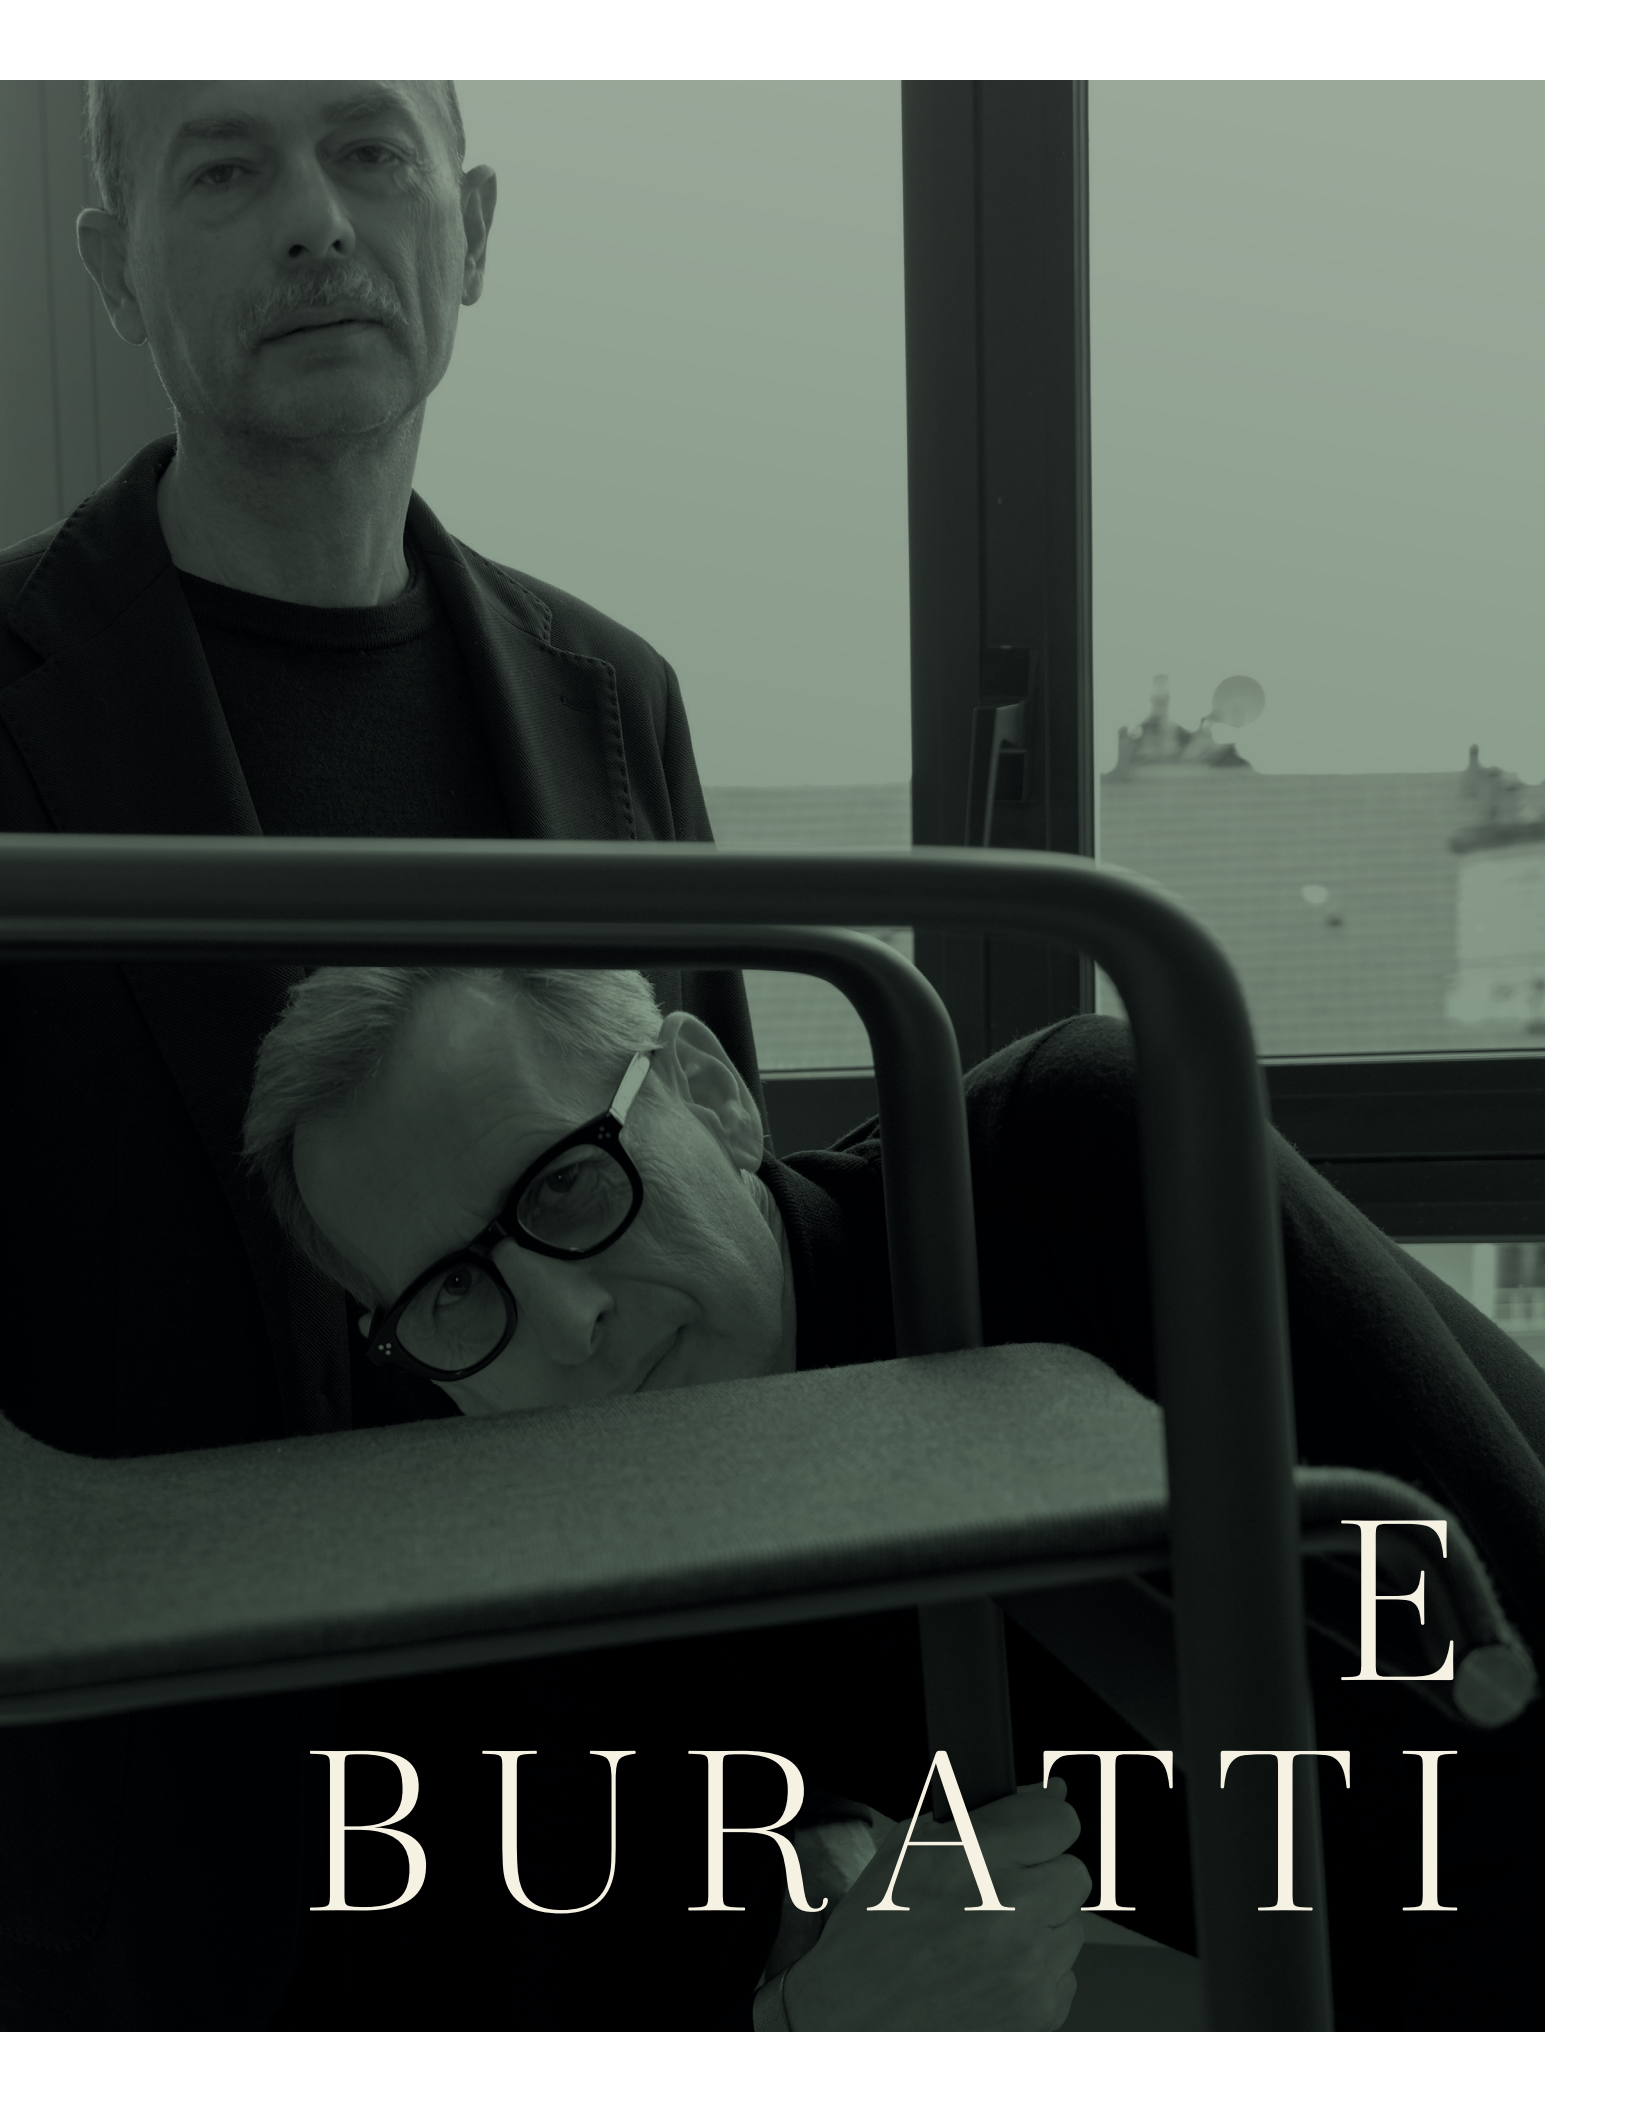

Combining culture, experimentation and technique, original vision and product quality.

AMIES

By Gabriele & Oscar Buratti

In Italy, life unfolds together. Around a table, beneath open skies, through seasons that come and go. Amies is born from that spirit: furniture created to welcome, to accompany, and to remain a trusted part of everyday life outdoors.

This project was born from the not-so-obvious goal of creating products designed to remain outdoors - exposed to sun and rain, heat and cold, even snow, without the need to be brought inside or covered. Furniture meant to be used in a garden, by a poolside, on a terrace or in an open patio, in any season.

For some time, we had wanted to work with aluminium and challenge ourselves by mastering the techniques typically associated with this material: profile extrusion, machining from solid blocks, and casting of potentially very complex components. Gloster involved us in this challenge, providing the advanced technology of its mechanical workshop, its tools, and the great expertise of its engineers.

Available in Meteor, Bone, & Sage powdercoats with Tecton, Dew & Tundra ceramic tops.

LOUNGER

In the Milanese dialect, Amies means friends. Those who gather close, who share long conversations and easy laughter, who turn simple moments into lasting memories. In Italy, life unfolds together.

Around a table, beneath open skies, through seasons that come and go. Amies is born from that spirit: furniture created to welcome, to accompany, and to remain a trusted part of everyday life outdoors.

By Gabriele & Oscar Buratti

Design is always a voyage. You depart with an idea, you navigate through doubts, discoveries and unexpected turns, guided by material, craft and intuition. With Ithaca, we embraced the metaphor - the spirit of adventure.

We searched for a place of balance, of calm and quiet harmony.

Reaching it felt like a most perfect conclusion - like a joyful homecoming - the moment travel finally finds its reason.

Multidisciplinary studio founded by Michele De Lucchi. Internationally renowned for its humanistic and interdisciplinary approach, the studio offers clients projects that embrace architecture, interior design, product design, and graphics. It carries out ongoing research on the future of architecture and its responsibility in imagining projects that not only acknowledge change but, where possible, inspire it.

The Milan based studio has worked with both public and private organisations, collaborating with large corporations such as Deutsche Bank, Intesa Sanpaolo, Novartis, and UniCredit. It has also designed buildings and exhibition systems for institutions like the Neues Museum in Berlin, Triennale Milano, and Gallerie d'Italia in Milan, Turin, and Naples. Additionally, the studio has designed lighting, products, and furniture for Alessi, Artemide, Cassina, Hermès, Poltrona Frau, and UniFor.

CIRCLE

Ithaca collection
designed by AMDL,
CIRCLE, celebrates
the expressive and
structural potential
of wood. Long central to
the architect's practice,
wood becomes the
defining element of the
collection.

Shaped and crafted to create a presence that is both architectural and welcoming, for Ithaca, AMDL CIRCLE developed a system of taut, tapered wooden diagonals that transform structure into sculpture. The essential and robust design supports table tops and seating elements with apparent lightness, generating a dynamic balance between tension and stability.

Warm, welcoming and quietly refined, Ithaca brings the tranquillity of a distant shore to outdoor living - a place to arrive, unwind and stay awhile.

The precision of the shaped wooden frames is paired with soft, enveloping cushions, creating a collection that combines formal rigour with comfort.

"For many years we have worked with wood, and it remains the material that gives us the greatest satisfaction. Carving it, smoothing it, shaping it, polishing it: with wood, one never grows bored. The combination of shaped, tensioned wood and soft, enveloping cushions turns Ithaca into an island to land on."

ITHACA EXPRESSIVE AND STRUCTURAL

The collection pairs sculptural solid teak frames with generous cushions to create spaces that invite rest and reconnection.

Warm, welcoming and quietly refined, Ithaca brings the tranquillity of a distant shore to outdoor living - a place to arrive, unwind and stay awhile.

Lounge Chair

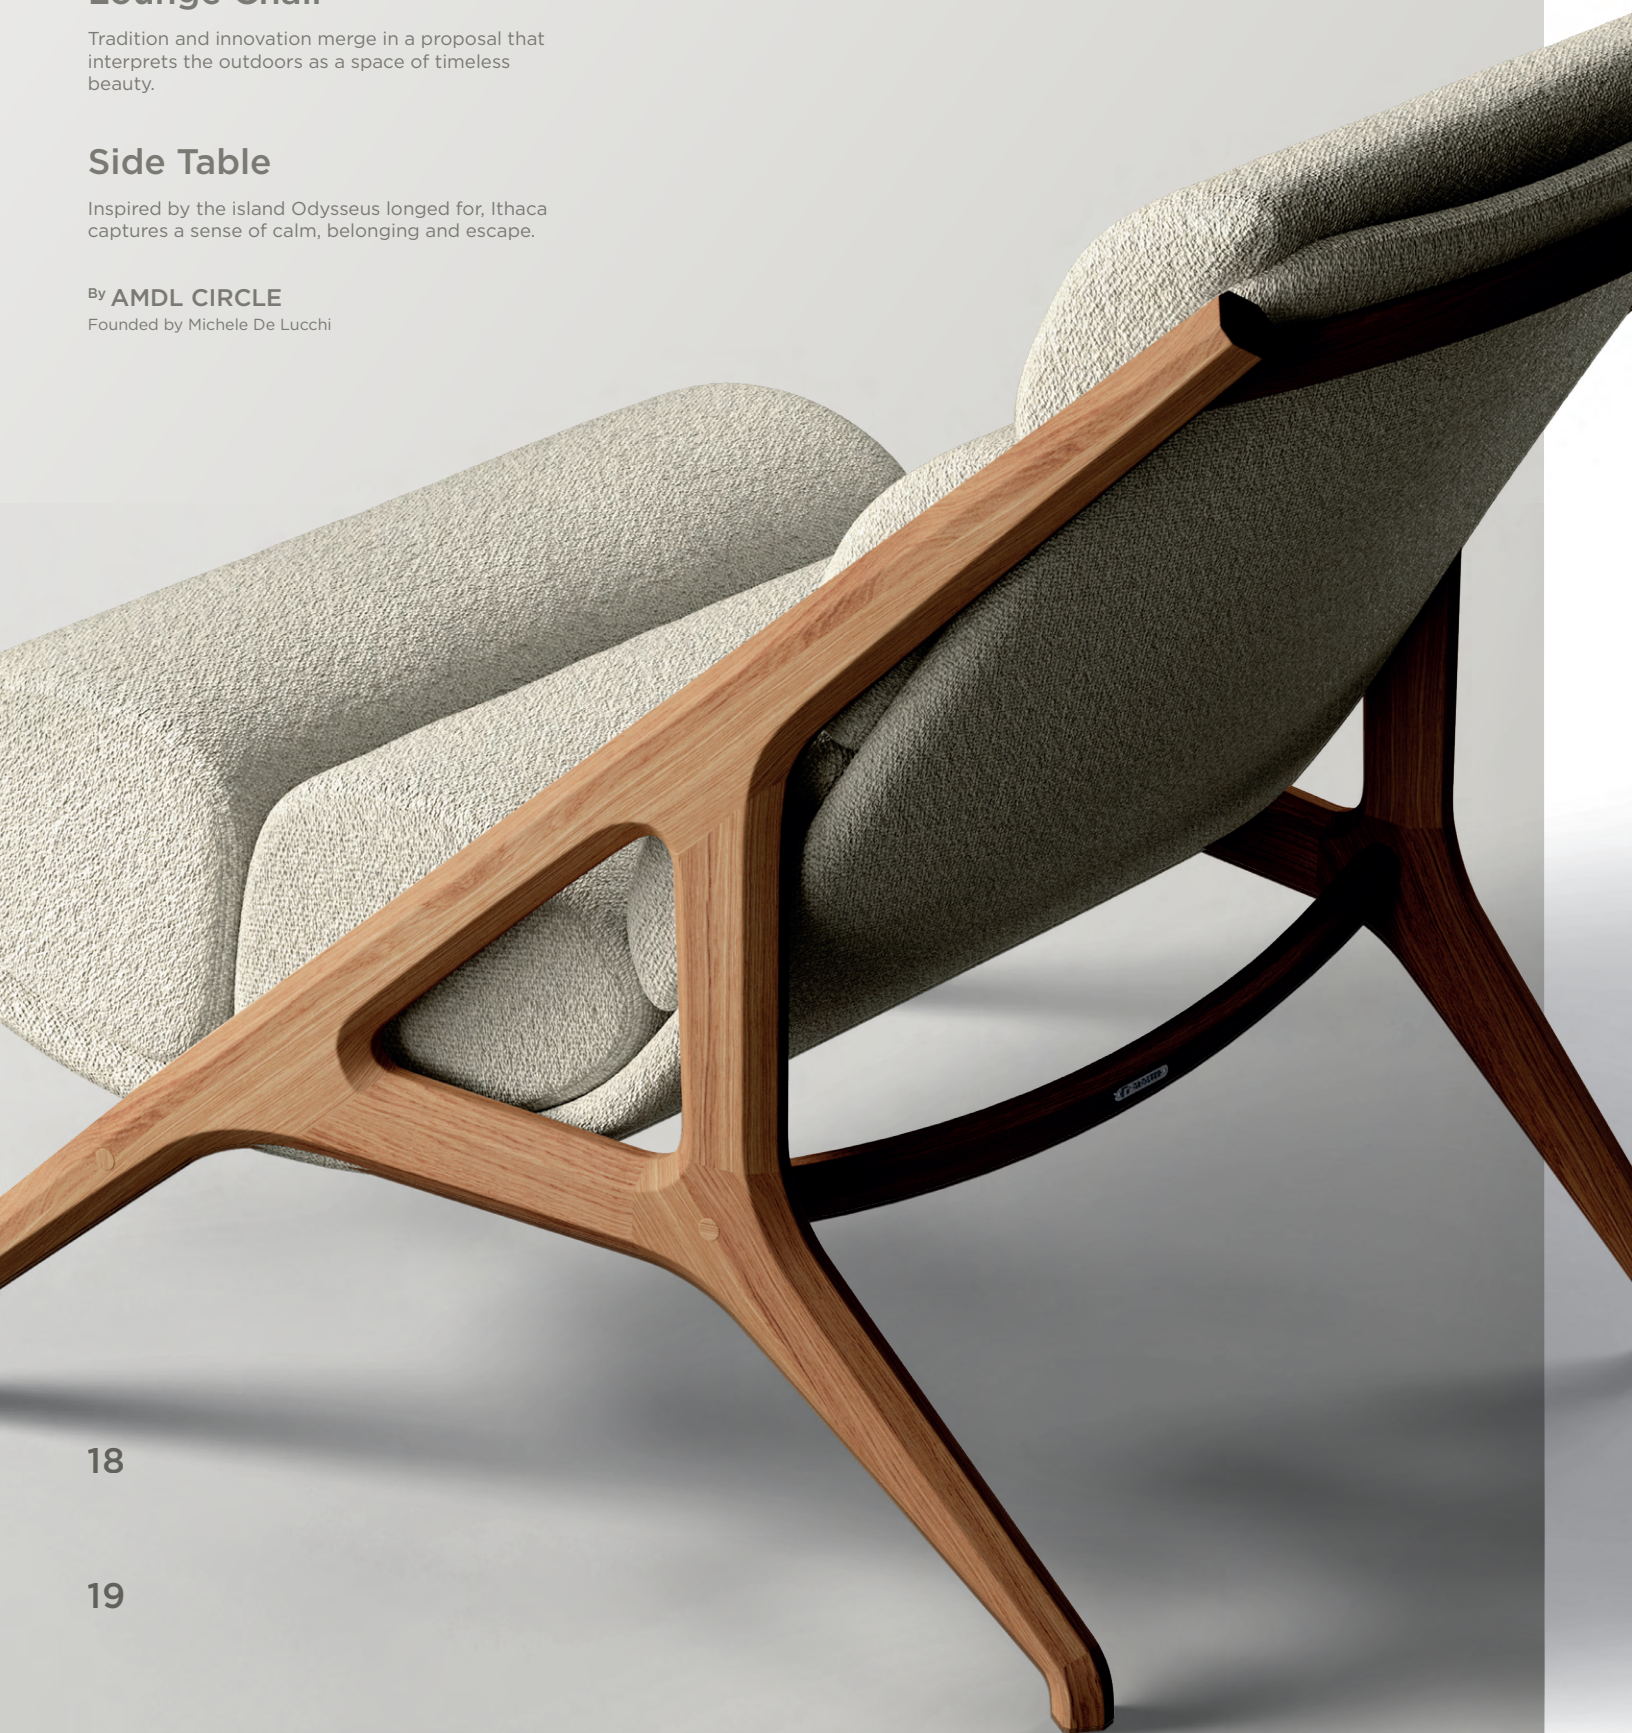

Tradition and innovation merge in a proposal that interprets the outdoors as a space of timeless beauty.

Side Table

Inspired by the island Odysseus longed for, Ithaca captures a sense of calm, belonging and escape.

Coffee Table

Architectural and organic, balancing precise geometry with natural forms.

By **AMDL CIRCLE**

Founded by Michele De Lucchi

The focal point of Ithaca's frame, uniquely octagonal in section, is a slender diagonal that is at once architectural and organic, balancing precise geometry with natural forms.

The collection comprises a Large and Small Sofa, a Lounge Armchair and a generous Ottoman. An asymmetric octagonal Coffee Table - conceived as the island at the heart of the setting and available with a solid, ceramic top - complements the seating options, pairing perfectly with a sculptural solid teak Side Table.

Together, the pieces form a complete lounge landscape designed to create intimate welcoming environments that invite connection, conversation and quiet retreat.

BRANCHED SHAPE

TIMBER FLOW FROM TREE TO FORM

Every Gloster piece is the result of a meeting between international design and skilled craftsmanship: every joint and every finely finished surface reflects consolidated expertise and a careful, transparent and responsible production process.

The Ithaca collection builds on Gloster's long-standing tradition as a specialist in high-end outdoor furniture, with roots dating back to 1960. Today, Gloster continues to craft outdoor furnishings with the same passion and artisanal expertise that defined its origins, using teak sourced from responsibly managed plantations and carefully selected to ensure enduring quality. A noble hardwood, naturally resistant to the elements, teak has been the benchmark material for fine outdoor furniture for over seven centuries.

GRAND PORTIONS

Every journey carries the hope of returning to
somewhere that feels like home

In myth, Ithaca was the island Odysseus longed for through years of wandering; a place of calm waters, dancing light and the deep comfort of belonging. Untouched, tranquil, the island remains a symbol of return and renewal. The Ithaca collection draws on this spirit of escape and homecoming - a place to slow down, settle in, and rediscover the luxury of stillness.

GROWN

As twilight settles and shadows lengthen, light becomes more than illumination — it is atmosphere, warmth, and invitation. Ambient Senja captures this quiet magic in the cooling eve, creating a subtle symphony of texture and glow, transforming outdoor spaces into intimate sanctuaries where conversations linger and time stretches a little.

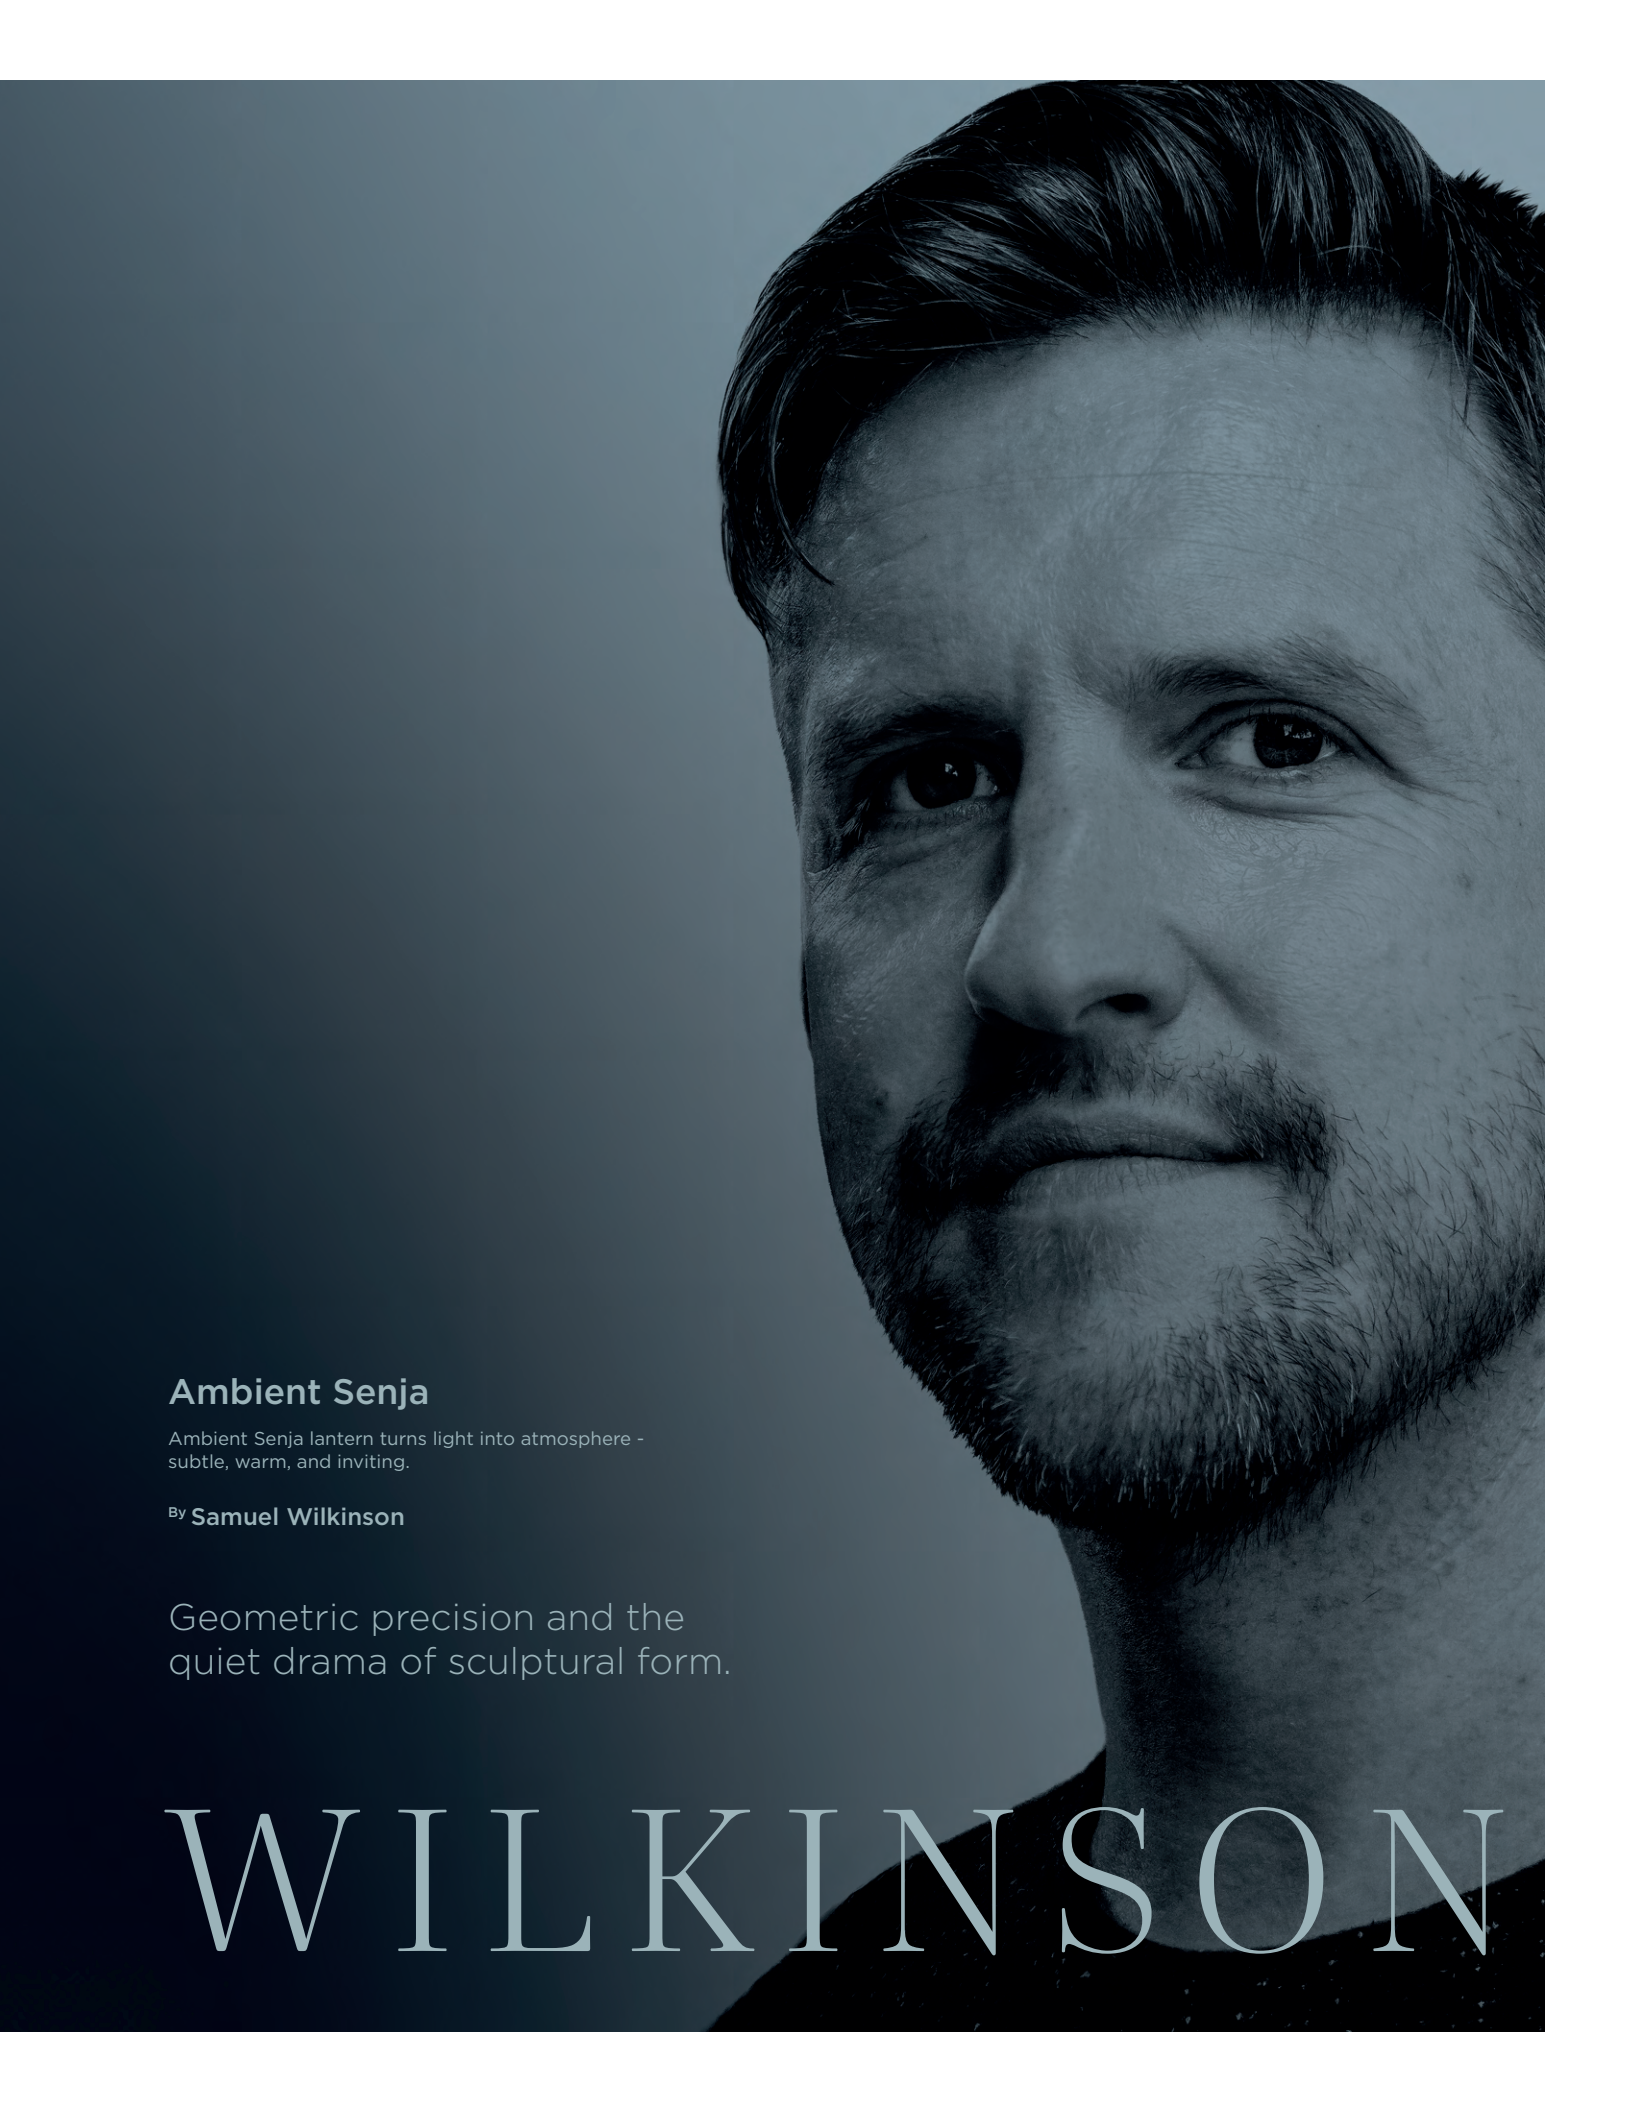

Ambient Senja blends timeless form with discreet, solar-powered technology.

Crafted from durable materials, Ambient Senja offers adjustable illumination with style that impresses by day and transforms outdoor spaces by night - the quiet glow that binds an evening together.

Available in Meteor & Bone
